

Please create a working selenium webdriver test script in either Java or Node.js for the following scenario:

**Scenario:**

1. Navigate to realtor.com
2. Enter "Morgantown, WV" into the search box.
3. Hit Enter
4. Verify that number N in "[N] Homes sorted by Relevant Listings" located above the search results is greater than 0.

5. Click on the Address of the second search result.

**Your solution will be evaluated on the following criteria:**

- The solution is a complete and self contained project with a README file in the root directory explaining how to build and execute the test script(s).
- The solution is easily extended to create other similar test scripts.
- The solution is executed against multiple web browsers.
- BONUS: The solution can be read easily by non-technical stakeholders.

Please submit your solution to [bill.demoss@move.com](mailto:bill.demoss@move.com) and [sharon.vega@move.com](mailto:sharon.vega@move.com).
